

# **FISCAL NOTE**

## **SB 2366 - HB 2302**

January 30, 1998

**SUMMARY OF BILL:** Designates certain activities as "agricultural and forest activity" for Water Quality Control permitting purposes and requires county legislative bodies to create boards of control to oversee and regulate any such agricultural and forestry land maintenance activities.

### **ESTIMATED FISCAL IMPACT:**

**Decrease State Revenues – Not Significant**

**Increase Local Govt. Expenditures - Not Significant**

Assumes that the activities that would have required a permit in the absence of this bill are performed so rarely that any decrease in revenues would be slight.

Assumes that boards of control will serve without compensation but will be reimbursed for any travel expenses. To the extent that counties establish such boards and reimburse travel, as well as develop and publish regulations, the necessary expenditures are not expected to be significant.

### **CERTIFICATION:**

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first name "James" being the most prominent.

James A. Davenport, Executive Director
